Here's the latest news from CHF's Studio for the pre-school hit, Pip Ahoy!

Starring the voice talents of Sir David Jason of 'Only Fools and Horses' fame and Stacey Solomon from 'X Factor'/'I'm a Celebrity', Pip Ahoy! is currently on TV in the UK, Europe, the Middle East and the Far East, as well as being on IPTV with merchandise and licensing deals already in place.

In addition, in collaboration with Yecheng Shanghai Media, Wings Media (a wholly owned subsidiary of the Shanghai Media Group) and China Telecom, Pip Ahoy! has recently launched across multiple IPTV, SVOD and Satellite channels throughout China.

With the first 52 episodes already dubbed into Mandarin, the series has launched simultaneously across a number of popular networks including Shanghai Online, Shanghai IPTV and BesTV, a channel which is available in more than 20 provinces in China and 20 million homes in Shanghai alone. Further IPTV and SVOD platforms will be announced in the coming weeks, the combination of which could see Pip Ahoy! available on-demand in as many as 900 million homes throughout China.

CHF are currently raising funds to complete Series 3 of Pip Ahoy! The total investment funding for Series 1 and 2 was raised under the generous Government-backed Enterprise Investment Scheme (EIS). The share price increased from £1.00 to £2.00 to reflect additional international broadcaster uptake and the increased number of episodes made.

With 52 episodes already produced and with the show currently on TV around the World and with a further 26 episodes currently in production, there is great potential for the share price to increase again further, subject to the performance of Pip Ahoy! in the Chinese and Middle Eastern markets.
