Investment Objective

The Start-Up Series Fund is organised to invest over time in tranches in qualified finalists from a series of competitions which commenced in October 2016, the first investment being in April 2017. The competitions are conducted (in association with startups.co.uk) by Worth Capital who also provide commercial due diligence and post-investment support.

The Fund invests in product and service businesses that are in attractive markets, have innovative products or services that can create new consumption behaviours, demonstrate the marketing and communication skills to build strong brands and have routes to an exit at a high multiple.

The Fund invests in both Seed Enterprise Investment Scheme (SEIS) and Enterprise Investment Scheme (EIS) businesses.

Investments in the Fund will be focused both on early-stage SEIS companies in the Consumer Goods and Services sector and in certain B2B opportunities and then as these Portfolio Companies develop to a point where further capital is needed, follow-on EIS investment or EIS investment in other EIS qualifying companies.

EIS investments will often be follow-on investments from the SEIS investments. They may also be sourced from outside the competition series. These EIS investments will still carry significant risks as the companies mature.

Investment by the Fund may be alongside other investors e.g. other funds and angel groups.

Exit Strategy

The Fund will take a long-term view on the Portfolio Companies and will aim to only look at the possibility of facilitating an exit from an investment after it has been held for at least a three-year period, thereby ensuring, wherever possible, that the investment has met one of the key qualifying conditions necessary for Investors to obtain the relevant tax reliefs. However, there may be occasions where an earlier sale is a commercially sensible decision.

The Fund anticipates that the options for Investors to exit a Portfolio Company may include the following:

- a sale to a third party, at arms-length, of a Portfolio Company
- the purchase by a Portfolio Company of shares held by the Fund's Investors, subject to taxation rules
- the introduction of new investors to a Portfolio Company
- the reduction of a Portfolio Company's share capital
- the voluntary liquidation of a Portfolio Company or the sale of a Portfolio Company's assets and subsequent distribution of proceeds to shareholders.
